Canada

Canada is the largest country in the world after the fall of the Soviet Union and not only is it a country unlimited in its natural resources and beauty it has consistently been voted by the United Nations as the country with the highest quality of life and over the last several years has had the best economy in the G7 Group of countries.

Canada is a country of immigrants and has a cultural and ethnic diversity, which makes all immigrants feel at home.

It has long attracted immigrants from Germany and approximately 10 % of its population has a German ethnic background, whether their ancestors came from Germany itself or from countries that have German speaking communities.

It has consistently been voted, by the United Nations, as one of the countries with the highest quality of life. Over the last several years it has had the best economy in the G 8 group of countries.

Province of Manitoba

Manitoba is a province, located in the geographical centre of Canada and is actively looking for truck drivers to satisfy a growing shortage. Due to Manitoba's central location in North America, it has a very large trucking industry that serves not only Canada but the central United States.

Large American cities, such as Chicago, Minneapolis, Denver and others are only one days drive from Manitoba largest city, Winnipeg.

The Province of Manitoba is a large province, which in its southern portion, has very rich farm land and to the east and the north has the Canadian Shield, with over 100.000 fresh water lakes and forests.

The climate is a continental climate, with warm dry summers and cool winters. The Province of Manitoba has more hours of sunshine than any other province of Canada.

It's major city is the City of Winnipeg which has a population of over 700.000 people and the remainder of it's total population of just over 1.000.000 is located primarily in smaller cities and towns in Southern Manitoba with very scarce population in the north.

Manitoba has a diverse economy and is a transportation centre as well as a manufacturing centre and carries on much of it's business with the United States located just 100 km to the south of the City of Winnipeg.

Manitoba's population is ethnically diverse. Accordingly it is a cultural centre and is known as Canada's multicultural centre and has the largest multicultural festival in North America, which

takes place in August of each year.

Manitoba is less known than other regions in Canada such as British Columbia, Alberta and Ontario and it is for this reason that the Province of Manitoba has a very progressive Provincial Nominee Program whereby it is actively seeking immigrants to come to Manitoba in order to boost its population and fill a demand for skilled workers. The basis of this program is an agreement between the Province of Manitoba and Canada whereby Manitoba is entitled to nominate individuals interested in immigrating to Manitoba. An applicant who has been appointed a nominee will have his or her application approved by Canada subject only to Canada ensuring that the applicant and his or her family are medically admissible and do not have a criminal record.

First Canadian Immigration Service

First Canadian Immigration Services was founded by Canadian lawyers, having many years of legal experience in Canada, with specific experience in Immigration Law and assisting immigrants in coming to Canada.

The principals of First Canadian Immigration Services are Paul E. Kammerloch, B.A. LL.B., and Robert McRoberts, B.A. LLB.

Paul E. Kammerloch, B.A. LL.B.

Paul E. Kammerloch is a lawyer, with over 26 years of experience in Canada and speaks

German. His law firm, Pullan Kammerloch Frohlinger, is able to communicate fluently in English, German, Russian, French, Hungarian and Spanish. Paul E. Kammerloch`s parents are German immigrants who immigrated to Canada from Germany in 1948 and who are originally from Southern Russia, which they fled during WWII. His ancestors are Volksdeutsche, which left Germany in the early 1800`s for Southern Russia.

Mr. Kammerloch is a former president of the German Canadian Congress in Manitoba as well as the German Canadian Business and Professional Association. He also has acted as counsel for the German Consulate and the government of Manitoba and has been practicing in the area of immigration law for over 20 years.

Mr. Kammerloch is well known in the German speaking community and has many contacts with German speaking professionals and is familiar with the government departments involved in the immigration process.

Mr. Kammerloch has dual citizenship, being both a Canadian citizen and a German citizen, and has business and personal relationships both in Canada and in Germany.

Robert J. D. McRoberts, B.A., LL.B.

Robert J. D. McRoberts is a lawyer, with over 25 years experience in Canada, and is the founding member of the law firm, McRoberts Law Offices, which he has franchised throughout Western Canada. Mr. McRoberts has extensive experience in many areas of law, as well as business interests throughout Canada and elsewhere.

Mr. McRoberts has European citizenship, his father being of Irish descent and his mother of Polish descent.

As lawyers Mr. Kammerloch and Mr. McRoberts are members of the Law Society of Manitoba and are bound by the strict guidelines, regulations and requirements which are administered and regulated by the Law Society of Manitoba.

Immigration agents, whether they be individuals or companies are not subject to the strict regulations and professional ethics of the legal profession and cannot offer the range of legal services that a law firm can provide, such as advice as to the purchase of real estate, advice as to tax considerations, estates, wills and various government programs and policies as well as the legal frame work of Canada in general terms.

Accordingly the advantages of using the services of a lawyer over an immigration agent are many.

Our interest is to have a successful and happy client and accordingly we only wish to proceed with applications which we are confident will be successful.

Services provided by First Canadian Immigration Services (First Canadian)

First Canadian was established by Mr. Kammerloch and Mr. McRoberts to offer a complete immigration service to immigrants intending to immigrate to Canada.

First Canadian, through its resources in Europe, provides assessment forms to the potential immigrant and conducts a thorough assessment of the applicant`s chances of obtaining permanent residence status.

In the event it is determined that the applicant`s chances of success are excellent, First Canadian enters into a Retainer Agreement with the applicant. First Canadian then searches for an appropriate job in Canada for the applicant and, upon obtaining a job offer, coordinates receipt of all necessary information from the applicant and the completion of the necessary documents for the applicant to apply for permanent residence status in Canada.

In the event the application is approved, First Canadian then coordinates the landing of the applicant and his or her family in Canada and assists in the introduction to the employer and the settlement process.

The all inclusive fee of First Canadian for these services is 8.000 Dollar, which is payable at the time of signing the Retainer Agreement. Included in this fee are all translation services and legal services required to complete the necessary documentation in order to apply for Permanent Residence.

The Canadian government`s processing and landing fees are not included in First Canadians fee. These are fees charged by the Canadian government to all immigrants.

In summary, First Canadian provides a complete immigration service, including job placement and is your Canadian Connection.
